## D-2.5 STAFF NUMBERING

### POLICY

Standardized Radio Identifiers shall be used for communications between Field Units or Dispatch. Radio Identifiers for Field Units shall not be shortened. The full identifier for the unit in question shall be used. Examples: “4202” shall not be “02”; “Water Tender 3” shall not be “Water 3”. The suffix attached to units (Telesquirt 3) is a single letter (s) and shall be used as such, but no prefixes will be shortened. If a Duty Officer responds on a Strike Team, he/she shall use the Strike Team number or the 4 digit identifier rather than the Duty Officer Identifier.

In order to keep Zone 4 Unit Identification Numbers in line with the Incident Command System (ICS), the following ID system shall be utilized for staff vehicles.
